

LC-Ready study groups increase usage and engagement all while creating a bit of friendly competition within and between groups. You can view group stats to see how much a study group is using the app as well as leader stats including most mastered study cards and best test score. The study wall provides a central place for communication between your study group members.

Hi Dan- can you help with the ABC explanation?

---

 **Daniel Limmer**    7 years ago  
Of course! Use ABC as a guide for the initial care of any patient who has a pulse. (CAB for those without a pulse.)  
The fundamentals:  
Airway - is it open and will it stay open? Fix any problems right away.  
Breathing - are they breathing enough to support life? If not, breathe for them.  
Circulation - this is a check for a pulse...but also to identify and treat bleeding and shock.
