

All of your purchased apps will appear on the welcome screen upon logging in to **LC-Ready.com** or the LC-Ready mobile app. From here you can begin using an app, view your history, including completed study cards and review and exam scores, or create a study group.

Take a quick look at your performance to date including progress toward completing your study cards, performance within your last five review sessions, and the average of completed tests. Click on the green **START** button to begin studying with an app.

Choose **STUDY** or **REVIEW** to master key concepts and apply knowledge by topic, or **TEST** to assess your knowledge across all topics covered in your course.

Be sure to join your classmates in an online study group to enhance your learning and better prepare to pass the NREMT. The **STUDY WALL** will appear when you are using the app, allowing you to ask questions or comment on topics as they arise.

Viewing your **HISTORY** will allow you to see how you've performed in each of your sessions. For example, if you complete Exam 1 at the beginning of your course, in the middle, and then again at the end, your score will be recorded for each of those sessions allowing you to see your progress throughout the course.
